

**ATTN:  
SHELTER FRIENDS**

**We at GET SERIOUS!®**

**'thank you' for all of your caring & devotion! Here's some 'serious' information we're sure you'll want to know!**

**GET SERIOUS!® KEEPS PETS IN HOMES & OUT OF SHELTERS!**

Re-soiling has become the #1 reason that pets are placed in shelters today. Their "pheromone" is what draws them back to the same spot making it difficult to keep our homes clean. But, don't blame your pet because the cleaner you used didn't get the job done! **GET SERIOUS!®** is the only cleaner that "extracts" their pheromone scent, plus stains & odors, so pets aren't attracted back to re-soil!

**"Don't blame me because you used a cleaner that didn't get the job DONE!"**

**I didn't do anything wrong!**

**GET SERIOUS!®** is the revolutionary PEROMONE, STAIN & ODOR EXTRACTOR that also never leaves any 'yellow' behind to wick-up later & it even removes 'old yellowing' left behind by other cleaners! Works in less than **3 minutes** and for serious '**STAINS**' just do a 2nd application but **warm the bottle in your MICROWAVE** first, then apply to soften stubborn stains & easily blot them out!

**MICROWAVE-Tough STAINS AWAY!**

**THIS IS THE ONE EVERYONE'S TALKING ABOUT!**

Help the many people "adopting" & "surrendering" pets that are not "house trained"... Ease the very "delicate" transition experience by recommending **GET SERIOUS!®** to stop the "needless" re-soiling pattern of behavior & guarantee permanent homes.
